**Course 1 will have a map change in the stadium.**

## Finish time keeping:

**Bitte dafür im Ziel stempeln!**

**Please punch at the finish!**

## SPORTident Air+ Hinweise Hints

Please read carefully the instructions at [https://www.sportident.com/documents/information\\_technical/SI\\_system\\_AIRplus/sportident\\_airplus\\_information\\_for\\_athletes.pdf](https://www.sportident.com/documents/information_technical/SI_system_AIRplus/sportident_airplus_information_for_athletes.pdf)

It is very important to ensure that the battery in the SIAC has sufficient power before it is used at an event. The station "**SIAC Battery Test**" can be used to perform a straightforward test.

**AIR+ functionality** is enabled at an event by the **CHECK**-process after the chip has been cleared.

**The CHECK-process is mandatory for all SPORTident AIR+ applications. AIR+ functionality is switched off by the FINISH-punch.**

Remember!

The active antenna of some GPS-watches can significantly reduce the SIAC's sensitivity. As a general rule a GPS-watch and SIAC shall not be carried on the same arm.
